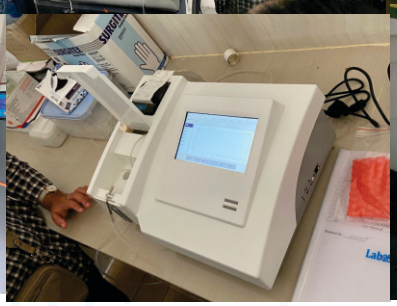
Solarised Healthcare Centre

LabSys™ Laboratory Redefined www.labosys.in

Lux Lighting association with GHE to setup their First Solar Powered Health Centre in the Garo Hills of Meghalaya to enable medical care to more than 83 remote villages located near the Indo - Bangladesh Border. The Medical center that was currently powered on Diesel now has 24X7 electricity and access to critical medical equipment's such as Ventilator, Baby Warmer etc. This is a step towards enabling the remotest villages with access to holistic development through not only good medical facilities but also opportunities for livelihood.



Design, Manufactured and Marketed by:
